ZEOS®
4K HDR System

Consolidated. Innovative. Performance Ready.

Unlock streamlined surgical efficiency with the innovative ZEOS 4K HDR visualization system including a single-use offering, minimizing surgical disruptions and accommodating facility-specific preferences.

Consolidated

- **3-in-1 4K HDR CCU –** Contains image processor, light source, image/video capture system, with 4K HDR quality throughout the entire optical channel.
- **Convenient tablet touch screen system –** Customizable image and data management with an easy-to-use tablet. Manage physician preferences and surgical specialty. New system has more dynamic interface, improved graphics, animation, and brightness.
- **Compatible and integrated** with Tricera All-in-One System for fewer systems in tower.

Innovative

- **4K HDR Single use cameras –** Compatible with the ZEOS 4K HDR system offering facilities immediate, reliable imaging and the option for both reusable and single use cameras.

Performance Ready

- **Full 4K HDR system –** Full state-of-the-art visualization experience throughout entire system. 4K HDR camera heads available in Integrated and C-Mount versions with a comprehensive portfolio of scopes and sheaths to accommodate your clinical needs.
- **Enhanced Storage and Processing Speed –** Enhanced processing power over 4K system, for data management capture and speed improvements. HDMI inputs/outputs and improved options for file transfer, data storage, EMR connectivity.
- **Light Engine –** 20% higher luminous flux at maximum output. To deliver light to the field, multiple light guide and connection options are available.
- **Dual wireless networks –** support simultaneous connectivity to wireless tablet and facility wireless network.

ZEOS™
Single Use Cameras

Immediate Imaging for Uninterrupted Performance

ZEOS single use cameras are an all-in-one lightweight device compatible with the feature rich ZEOS 4K HDR 3-in-1 CCU. Used as an alternative to a reusable camera head, light guide and arthroscope, it is white balanced and ready for use immediately out of the sterile packaging.

ZEOS Single Use Advantage

- 120° field of view in square format compared to circular view for enhanced perspective.
- Near infinite depth of field removing the need to focus.
- Chip on tip technology eliminates fogging.
- Immediate sterile alternative for high volume days.
- Available option when scope damage/breakage occurs.
- Alleviates direct capital equipment acquisition costs plus repair/maintenance for smaller facilities.
